

Below you will see an updated '2020 Unit 1 Work & Due Dates' document. PLEASE NOTE THIS TIMELINE WILL CHANGE In response to the restrictions of COVID-19 and distance learning. Also below is the folio content checklist in case you misplace it.

For Unit 1 SAT folio work, please ensure that you have completed activities below:

Justifying preferred Option

7.3 a or b, apply critical thinking Design Folio Template (often A3 size aka DFT's p185. Create a folio page

Working Drawings

7.4 technical drawings (displaying sections, showing sizes & construction methods) DFT p186 Create folio pages

Production Planning

8.1 lists, costings Create a folio page

8.2 predicted production steps Create a folio page

8.3 timeline, DFT's p187-189 Create a folio page

8.4 risk assessments, DFT's p190 -p191 Create folio pages

8.5 quality DFT p192, 8.6 correct use of equipment /operating procedures DFT p193 Create folio pages

TERM 2, WEEK 1 & 2 Classwork

Safety & Quality

8.4 risk assessments, DFT's p190 -p191 Create folio pages (*Antonio I have already emailed you some for school equipment, let me know if you need more. Tara you can find one for a sewing machine online if you chose to use one, or risk assessment for hand sewing*)

8.5 quality DFT p192 Create a folio page

8.6 correct use of equipment & operating procedures DFT 193 Create folio pages

Now that's way too many activities and folio pages for 1 week, so I have stretched it out over 2 weeks. If you feel it's too much, let me know. Because distance learning may be a challenge for you, we have time extensions as needed. You will need to look after yourself with a balance of online school work and home life. Your guardian would have provided information related to this ~ Murray produced a great video that offers many constructive suggestions.

Yes there are many folio pages prior to Term 2's work. However I trust you completed most of term 1's work after my email at the start of the holidays, as we needed to make up for the lessons we missed in the last week.

I need to see drafts. We can fine tune and polish final copy folio pages, after the production of your product has been completed at the end of the term - or even extended into Term 3 if needed.

Most importantly, we will need to work out a system for me to view your activity worksheet and or folio pages and provide you with feedback. At this stage let's trial you emailing me images of your activity worksheets and folio pages; either digital files, scanned pages or photos. If the file sizes are too large for email, you may have to send them through in multiple separate emails, or alternatively we use dropbox / google drive, or some cloud platform; interestingly, you learn and master online remote working in Term 3 Unit 2. We could have swapped Unit 2 for Unit 1 this term, however I felt it best to keep the consistency from last term.

Please feel free to email me with any problems you may encounter, or with any questions, or any suggestions.

Take care,

Glenn
